

INTERNATIONAL AND BLENDED WHISKIES

Enthusiasts of particular expressions aside, there is a wide, wonderful world out there in whisky. Here, we share a range of whiskies that aren't Canadian whiskies, aren't single malts either, but still wonderful expressions of this incredible spirit. Personally, I love finding a great Irish whiskey, I'm enchanted by some of these great examples we see here from Japan or South Korea, and yes even some from countries that we don't always think of that make whisky. Take a little tasting adventure with a few of these treats. *Tom Firth*

NON-ALCOHOLIC ROSE AND ROSE SPARKLING WINES

In the non-alcoholic wine category we are looking for examples that are balanced and showing some depth of complexity. With the removal of alcohol, other constituents of the wine can be lost, rendering the drink as an unrecognizable distant relative to the base wine counterpart. The best of the bunch in this category were well executed, had a clear vinous character, and offer the consumer an authentic wine experience, minus the alcohol. *Jenny Book*
