

PROSECCO

The popularity of sparkling wines shows no sign of slowing; a beloved category of wines for its celebratory image, sparkling wine has made it into the mainstream. Prosecco particularly has found a way into many a glass. This style of bubbles is known to be fresh and light with lots of floral and fruit character, and this year's leaders do not disappoint. Look to one of our roses for a little more complexity and red fruit character or stay with the classic styles here made for the vibrancy and versatility quality prosecco can offer. *Margaux Burgess*
