

RED BLENDS

The most beloved wine regions of the world are known for their outstanding blends: Bordeaux, Chateaufeuf du Pape, Rioja, Veneto, South Africa, and even our own Okanagan Valley. Blending grapes allows a winemaker to design a wine that is a perfect harmony between acidity, tannins, body and fruit. Bordeaux blends of cabernet, merlot, cabernet franc, and petit verdot are replicated around the world from South Africa to North America, while Rioja's blending of tempranillo, garnacha, graciano, and mazuelo has evolved to join the ranks of the most esteemed wines. *Dean Norris*
