

TEMPRANILLO AND BLENDS

One of Spain's greatest contributions to wine, tempranillo can make stellar, grippy red wines that age for decades. It's a key component in the wines of Rioja, Ribera del Duero and Toro — Spanish regions with strong reputations. Tempranillo goes by many monikers, and it's grown elsewhere in the world, most notably in Portugal where it's known as tinta roriz or aragonez, but nobody can match what they do with it in Spain. *Darren Oleksyn*
