

SPARKLING ROSÉ

There is a certain level of decadence that emerges when drinking a sparkling rosé. We don't reach for the sparkling wines often enough – perhaps there is still that reluctance about what makes a special occasion, but when it comes to the sparkling rosé, they just become fun in the glass. A wine to enjoy for the sake of enjoyment, special occasion or not. The quality of winners in this category is excellent, and the range of prices here should also help to promote some cork popping! *Tom Firth*

**CLOVER HILL WINES
NV ROSÉ**

Tasmania, Australia
\$42-47 CSPC 870310

SPARKLING WINES

The single biggest problem about sparkling wines is that we don't pop the corks on them often enough. The “go-to” bottle for celebrations – that is a wonderful thing indeed. But if one's partner were to just order a bottle of bubbly, or have one in the fridge, the first question would be “Why? What are we celebrating?” And that is a bit of a shame. It's a wine that doesn't need a reason, just good people around you, and the simple enjoyment of a moment in time. This year's Best in Class came from Brazil – which is pretty awesome for those that want to try something new. *Tom Firth*
