

FRUIT WINES

Like tasting the rainbow. A fruit wine flight in a competition is a kaleidoscope of colour and a marvel of flavour. The best capture the essence of the fruit being used and amplify the result. None better this year than Shin's premium Yuzu wine from Japan, perfect for a rip of citrus if you're craving, or a dash in a cocktail for a little zing. Local hunters should snap up of a bottle of Joosed Moose's Raspberry Kiss from Grande Prairie. It'll take you right back to your grandmother's raspberry bush in the back yard. *Brad Royale*

GEWÜRZTRAMINER

Gewürztraminer is most well-known from Alsace but BC is eking out quite the reputation for it as indicated by their very strong showings in this category. A combination of ample sun and cool nights produces wonderfully intense and aromatic expressions of gewürztraminer. Juicy peach and lychee fruits with rose and ginger spice were in full swing in the best of the category. I love the glossy mouth feel in these textural whites, and am always excited to pair gewürztraminer with roasted white meats such as chicken and pork in particular. *Jenny Book*
