

RED SINGLE VARIETALS

With no other grapes to help balance acid, tannin, sweetness, and colour, etc you should really get a sense of place from a single varietal, and it's apparent in our winners here that they all come from regions known for producing quality examples of these individual varietals - Puglia is famous for its primitivo for example, as is Lodi for zinfandel, and South Africa's Western Cape for pinotage... This must also be one of the highest scoring categories with so many wines displaying exceptional typicity. Well deserved awards to all! *Linda Garson*

JUDGES SELECTION
